ON CAR INJECTOR SERVICING

Includes a high pressure clean of all fuel injectors on your engine ensuring you maintain the best possible fuel economy. Also cleans your fuel rail and helps prevent carbon build up inside your combustion chambers if used regularly. Recommended every 20,000kms or 12 months (more often if driven in heavy traffic).

NORMALLY \$160

NOW

\$135

THROTTLE BODY SERVICE

Combined with the fuel injector service, helps ensure smoother running. Includes removal of throttle body and a full de carbon of throttle body surfaces, IAC motor removed de-carboned, lubricated and Base Idle adjustment carried out. New throttle body gasket supplied and fitted. Recommended every 2 years or 40,000kms (more often if driven in heavy traffic).

NORMALLY \$150

NOW

\$120

POWER STEERING FLUID FLUSH & REPLACEMENT

Firstly we add a specially formulated cleaning fluid, then using a special vacuum pump we totally remove all old power steering fluid and contaminants including the cleaning fluid. We then fill the entire system with new fluid and add a power steering fluid conditioner. Recommended every 2 years or 40,000kms.

ONLY

\$79

AIR CONDITIONER PURIFICATION SERVICE

Our AirTek service uses a specialised ozone generator that will eliminate bad odours and harmful bacteria throughout your cars air conditioning system, and help prevent future build up. We offer you the most reliable and hygienic way to deodorise and disinfect your air conditioning system. We also include a complimentary air freshener for you to take away. Recommended every 12 months.

ONLY

\$79

COOLANT FLUSH

Your vehicle's coolant plays a vital role in the performance and should be flushed of contaminants and refilled with new coolant every two years.

ONLY

\$110

BRAKE FLUID FLUSH

Make a brake fluid flush part of your normal maintenance schedule to ensure the safety of you and your loved ones.
